FINAL EXAMINATION

Module 1.1 Feedback from Krupali Mehta

Write your feedback (if any) for this module.

I am pursuing my Chartered Accountancy course and appeared for CA Final exam recently. I found the first module very good as the introductory part. Thank you Mr. Dalal.

Write your feedback (if any) for this module.

Good information.

Module 1.7 Feedback from NILADRI SIRCAR

Write your feedback (if any) for this module.

The lessons are well taken as the meaning suggests that every picture story tells a story. The comparisons between two similar looking events requires in-depth thinking and analysis. The required results of claims can be authenticated by comparing similar events or subjects.

Module 1.1 Feedback from Gargi Akolkar

Write your feedback (if any) for this module.

Very informative session. Easy to understand and interesting enough to keep the students hooked to the module till the end. Thank you so much for this educational session. Best regards, Gargi

Very well explained. Benford's Law is extremely useful in sampling in case of risk based audits. Thank you so much for the informative learning. Best regards, Gargi

Very good session. Detailed insights given about conducting interviews during the investigation. Thank you so much Best regards Gargi

Sat Jan 13 2018 06:04:30

Very effectively and concisely explained. Good to know that you need not be an expert in excel to do a forensic spread sheet check.

Narendra Ashara

Wed Jan 17 2018 00:07:01

Session on excel forensic was great, about how to look at the data with tools and techniques.

TEJASH CHAVJI

liked the presentation

KRISHNA MAHESHWARI

EXTENSIVE LEARNING

Asif Makda

Mon Oct 23 2017 09:49:18

The Advertisement case study perfectly explains the concept of Barium Test.

Prashant Seta

Very informative

Thu Jul 20 2017 17:56:08

SANJAY SHAH

Absolutely classic method of putting the topic of Interview among us. Different team members presenting their experience and views on the Interview and last but not the least, Mr. Mahesh was as comprehensive and perfect in presentation. Well Done.

MANOJ KUMAR PRAJAPAT

Awesome examples.....to understand the theme of forensic accounting....
